## 地质论评 2000 年第 46 卷 总目次

### 第 1 期

|                                                              |                                        |
|--------------------------------------------------------------|----------------------------------------|
| 中国地质科学 50 年的简要回顾 .....                                       | 王鸿祯 翟裕生 游振东 石宝珩 杨巍然 杨光荣 ( 1 )          |
| 论东亚大陆的构造翘变——燕山运动的全球意义 .....                                  | 董树文 吴锡浩 吴珍汉 邓晋福 高 锐 王成善 ( 8 )          |
| 浙江中生代火山岩时代厘定和问题讨论——兼评 Lapierre 等关于浙江中生代火山活动时代的论述 .....       | 陶奎元 邢光福 杨祝良 毛建仁 赵 宇 许乃政 ( 14 )         |
| 盆地内渗透性地层超压形成机制及钻前压力预测 .....                                  | 罗晓容 杨计海 王振峰 ( 22 )                     |
| 华北东部中生代构造格局转换过程中的深部作用与浅部响应 .....                             | 邵济安 牟保磊 张履桥 ( 32 )                     |
| 中国东部燕山期火成岩构造组合与造山—深部过程 .....                                 | 邓晋福 赵国春 赵海玲 罗照华 戴圣潜 李凯明 ( 41 )         |
| 燕山山脉隆升过程的热年代学分析 .....                                        | 吴珍汉 崔盛芹 吴淦国 朱大岗 冯向阳 马寅生 ( 49 )         |
| 安徽省嘉山管店—全椒龙王尖断裂的厘定和构造岩透射电镜分析及地质意义 .....                      | 黄德志 邱瑞龙 刘德良 杨晓勇 徐 祥 ( 58 )             |
| 湘中南地区煤变质与地质构造关系的研究 .....                                     | 潘伟尔 ( 64 )                             |
| 地下开采中优势面控灾机理分析 .....                                         | 倪宏革 罗国煜 ( 71 )                         |
| 城市垃圾卫生填埋场粘性土衬垫的截污容量及其研究意义 .....                              | 刘长礼 王秀艳 张 云 ( 79 )                     |
| 内蒙古西北部宝音图群 Sm-Nd 和 Rb-Sr 地质年代学研究 .....                       | 徐 备 刘树文 王长秋 郑海飞 田 峰 ( 86 )             |
| 辽北张强地区燕山期以来主要构造运动期最大主应力的测定 .....                             | 孙宝珊 丁原辰 任希飞 邵兆刚 周新桂 任德生 ( 91 )         |
| 一种新的成矿流体示踪法——流体包裹体 N <sub>2</sub> -Ar-He 示踪体系 .....          | 孙晓明 David I. Norman 孙 凯 陈敬德 陈炳辉 ( 99 ) |
| 浙江天台县晚白垩世蛋化石生物地层研究 .....                                     | 方晓思 王耀忠 蒋严根 ( 105 )                    |
| 新疆东昆仑祁漫塔格地区发现蛇绿岩 .....                                       | 沈远超 杨金中 刘铁兵 李光明 曾庆栋 ( 90 )             |
| GIS 技术在中国可溶岩面积计算中的应用 .....                                   | 蒋小珍 ( 104 )                            |
| 中国大陆科学钻探工程简介 .....                                           | 中国大陆科学钻探工程中心地学部 ( 48 )                 |
| 评中元古界常州沟组发现碳质压型化石及多细胞组织结构 .....                              | 陈孟毅 ( 21 )                             |
| 第四届全国青年地质工作者学术讨论会在北京召开 .....                                 | ( 63 )                                 |
| 1998 年中国科技期刊总被引频次前 500 名、影响因子前 200 名排行表(仅列与地质学有关的部分期刊) ..... | ( 78 )                                 |
| 《地质学报》(中、英文版)、《地质论评》征稿简则 .....                               | ( 40 )                                 |
| 新书介绍 .....                                                   | ( 13 )                                 |
| 新世纪寄语 .....                                                  | ( 封底 )                                 |

### 第 2 期

|                                           |                                 |
|-------------------------------------------|---------------------------------|
| 变质核杂岩的旋扭成因——滇东南老君山变质核杂岩的构造解析 .....        | 李东旭 许顺山 ( 113 )                 |
| 壳幔 Rb-Sr 混合等时线及其地质意义 .....                | 李 龙 郑永飞 ( 120 )                 |
| 韧性剪切造成岩成矿作用及对金矿化的控制——以内蒙古武川县后石花金矿为例 ..... | 贾国志 梁海军 ( 131 )                 |
| 从波动观点看塔北地区油气藏的形成演化——以英买 7 油藏为例 .....      | 刘国臣 吕修祥 金之钧 ( 141 )             |
| 大陆岩石圈有效弹性厚度研究综述 .....                     | 付永涛 李继亮 周 辉 王义天 吴运高 吴 峻 ( 149 ) |
| 对幔源岩中流体组成的不同测定方法评价 .....                  | 张铭杰 王先彬 李立武 ( 160 )             |
| 超临界流体热力学函数的理论计算 .....                     | 孙 睿 胡文宣 段振豪 ( 167 )             |
| 纵弯叠加褶皱地区岩石有限应变特征——以川东北地区典型叠加褶皱为例 .....    | 黄继钧 ( 178 )                     |
| 赣南白面石盆地双峰式火山岩的 Rb-Sr 和 Sm-Nd 同位素特征 .....  | 孔兴功 陈培荣 章邦桐 ( 186 )             |
| 湖南晚二叠世生物礁成岩作用的碳、氧同位素研究 .....              | 姜月华 岳文浙 柳祖汉 杨孟达 金善鹤 武金云 ( 190 ) |
| 吉林南部变质岩太古宙—元古宙分界时限的确定及过渡性构造演化 .....       | 孙忠实 邓 军 刘雅琴 ( 197 )             |
| 东昆仑印支期区域构造背景的花岗岩记录 .....                  | 袁万明 莫宣学 喻学惠 罗照华 ( 203 )         |
| 东营凹陷第三系流体物理化学场及其演化特征 .....                | 曾继辉 ( 212 )                     |
| 浸油法测量黄土样品的容重及其意义 .....                    | 孙有斌 安芷生 周 杰 卢雪峰 ( 220 )         |
| 中国地质学会第七届青年地质科技奖获奖名单揭晓 .....              | ( 148 )                         |
| 中国地质学会——推选地学院士的重要渠道 .....                 | ( 封底 )                          |
| 新书介绍 .....                                | ( 159 )                         |

## 第 3 期

|                                             |                                          |
|---------------------------------------------|------------------------------------------|
| 桐柏蔡家凹岩片内寒武纪高肌虫的发现及其地质意义 .....               | 张仁杰 舒德干 蒋志文 姚华舟(225)                     |
| 西昆仑山 A 型花岗岩带的发现及其地球动力学意义 .....              | 姜耀辉 杨万志(235)                             |
| 区域变质作用中岩石的质量迁移和元素活动——以庐山双桥山群变泥质岩系为例 .....   | 唐红峰 刘丛强 谢国刚(245)                         |
| 再论德兴斑岩铜矿成矿物质来源 .....                        | 金章东 朱金初 倪培 李福春(255)                      |
| 淄博煤矿矿坑排水的水化学特征及其形成机理的初步研究 .....             | 张建立 沈照理 李东艳(263)                         |
| 从亚洲大陆块体拼贴过程看大陆造山带的形成与演化 .....               | 周焯秀 肖文交 杨振宇 朱日祥(270)                     |
| 渤海湾西岸年轻贝壳堤:形态、结构及多成因过程 .....                | 王宏 李建芬 张玉发 张金起 李凤林(276)                  |
| 大别山超高压变质带层析地震调查 .....                       | 彭聪 姜枚 宿和平 史大年 A. Schulze T. Ryberg(288)  |
| 湘黔交界娄山关组层序地层学研究 .....                       | 王尚彦 杨家禄 孟德保 龚淑云 林启祥 秦松贤(295)             |
| 内蒙古大乃林沟角闪岩岩石学特征 .....                       | 王玉往 王京彬 王莉娟(301)                         |
| 新疆阿尔泰阿祖拜稀有金属-宝石矿床的成矿时代——燕山期稀有金属成矿的新证据 ..... | 王登红 陈毓川 邹天人 徐志刚 李华芹 陈文 陈富文 田锋(307)       |
| 板状绿柱晶体的结构测定 .....                           | 郭延军 王汝成 徐士进 Francois Fontan 骆耀南 曹志敏(312) |
| 大水沟磷矿中碲铋矿显微像结构——交代成因新证据 .....               | 张佩华 赵振华 王一先 曹志敏 赖鸣远(318)                 |
| 中国典型表层岩溶系统的地球化学动态特征及其环境意义 .....             | 刘再华 袁道先(324)                             |
| 塔里木盆地中、上奥陶统烃源岩的碳同位素宏观证据 .....               | 王大锐(328)                                 |
| 四川黑色岩系中发现独立的铂矿物——自然铂 .....                  | 张如柏 王治明 常嗣和(327)                         |
| 计算机在古植物学上应用的进展 .....                        | 胡雨帆 李中明 韦安华(254)                         |
| 论外地核中的 U、Th 及其与地幔惰性气体起源的关系 .....            | 鲍学昭(334)                                 |
| 充分发挥学会职能,促进青年地质学家成长 .....                   | 禹启仁(287)                                 |
| 中国地质学会 2000 年度学术活动计划 .....                  | (335)                                    |
| 地质·环境与可持续发展战略研讨会在京召开 .....                  | (244)                                    |
| 第二届全国化学地球动力学高级研讨会在合肥召开 .....                | (234)                                    |

## 第 4 期

|                                        |                          |
|----------------------------------------|--------------------------|
| 皖南兰田残留向斜不是构造窗 .....                    | 余心起(337)                 |
| 陆盆层序地层研究的思路 .....                      | 岳文浙 丁保良 魏乃颐(347)         |
| 铀—油相伴性探讨 .....                         | 李怀渊 张守鹏 李海明(355)         |
| 赣南—粤北晚中生代火山岩系划分和时代讨论 .....             | 巫建华 周维勋 章邦桐(362)         |
| 造山过程中的流体—岩石相互作用和质量传输的评述 .....          | 刘伟(371)                  |
| 流体包裹体研究的进展和方向 .....                    | 卢焕章 郭迪江(385)             |
| 医药地质学浅析 .....                          | 史洪岳(393)                 |
| 北京十三陵中元古代串岭沟期地质事件的探索 .....             | 宋天锐 和政军 丁孝忠 张巧大(400)     |
| 河南商城—固始地区石炭系沉积环境及其构造意义 .....           | 赵宗举 杨树锋 陈汉林 竺国强 楼章华(407) |
| 南海北部陆缘地壳结构特征及其构造过程 .....               | 阎全人 王宗起 李赠悦 李继亮(417)     |
| 临邑洼陷商 741 火成岩油藏岩相及储集层研究 .....          | 刘惠民 肖焕钦 韩荣花(425)         |
| 三峡库区奉节县宝塔坪小区大型复杂滑坡特征及成因机制 .....        | 张加桂(431)                 |
| 江苏镇江—扬州长江公路大桥桥基断裂断层泥定量研究 .....         | 汪明武 罗国煜 阎长虹(437)         |
| 地带性人群中毒的环境背景因素及其研究现状 .....             | 张辉(443)                  |
| 中国 21 世纪水资源的前景及对策 .....                | 袁志梅 吴霞芳(424)             |
| 中国地质学会第 37 届理事会(2000~2004)成立 .....     | (384)                    |
| 中国地质学会第 37 届理事会(2000~2004)组成人员名单 ..... | (384)                    |
| 中国地质学会先进集体(1997~2000)名单 .....          | (封底)                     |
| 中国地质学会先进工作者(1997~2000)名单 .....         | (封底)                     |
| 第 15 届国际喜马拉雅—喀喇昆仑—西藏学术讨论会在成都召开 .....   | (354)                    |
| 《地质学报》(英文版)所刊论文全部被《科学引文索引》收录 .....     | (346)                    |

## 第 5 期

|                               |                  |
|-------------------------------|------------------|
| 云开大山云开群地层时代和层序的研究现状与新认识 ..... | 叶真华 劳秋元 胡世玲(449) |
|-------------------------------|------------------|

|                                                                  |                                         |          |
|------------------------------------------------------------------|-----------------------------------------|----------|
| 柴达木盆地新生代构造样式的演化特点 .....                                          | 戴俊生                                     | 曹代勇(455) |
| 高压—超高压变质流体的一种重要载体:名义上的无水矿物 .....                                 | 夏群科 陈道公 George Rossman 支霞臣 程 昊 吴元保(461) |          |
| 新疆阿克提什坎金矿床石英 <sup>40</sup> Ar/ <sup>39</sup> Ar快中子活化年龄及其意义 ..... | 周涛发 袁 峰 岳书仓 袁旭音(466)                    |          |
| 2.5 Ma 以来大陆风化强度的演变 .....                                         | 杨杰东 陈 骏 李春雷 陶仙聪 季峻峰 陈 旸(472)            |          |
| 霓长岩岩石学特征及其地质意义评述 .....                                           | 杨学明 杨晓勇 范宏瑞 郭 范 张兆峰 郑永飞(481)            |          |
| 烃源岩催化生烃机制研究进展 .....                                              | 刘洛夫 李术元(491)                            |          |
| 库车冲断带新构造遥感分析 .....                                               | 范湘涛 卢华复 郭华东 邵 芸(499)                    |          |
| 活断层中断层泥分形与断裂活动关系 .....                                           | 胡道功 吴树仁 吴淦国(507)                        |          |
| 扬子板块西缘北段新元古代花岗岩类的地球化学特征和成因 .....                                 | 沈渭洲 凌洪飞 徐士进 周新民 赵子福 郭建强(512)            |          |
| 福建永泰云山碱性流纹岩的厘定及其地质意义 .....                                       | 邱检生 王德滋 周金城 王汝成(520)                    |          |
| 西准噶尔前陆盆地二叠纪火山—沉积序列与盆地演化耦合 .....                                  | 赵玉光 肖林萍(530)                            |          |
| 金家庄超基性岩型金矿围岩蚀变地球化学研究 .....                                       | 李红阳 杨竹森 丁振举 罗泰义 高振敏(536)                |          |
| 秦岭地区蚀变煌斑岩型金矿的发现及金的预富集研究 .....                                    | 涂怀奎(543)                                |          |

## GEOLOGICAL REVIEW Vol. 46 2000

## CONTENTS

## No. 1

|                                                                                                                                                                        |  |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Fifty Years of the Geological Science in China .....                                                                                                                   |  |
| ..... Wang Hongzhen, Zhai Yusheng, You Zhendong, Shi Baoheng, Yang Weiran, Yang Guangrong ( 7)                                                                         |  |
| On Tectonic Seesawing of the East Asia Continent—Global implication of the Yanshanian Movement .....                                                                   |  |
| ..... Dong Shuwen, Wu Xihao, Wu Zhenhan, Deng Jinfu, Gao Rui, Wang Chengshan ( 12)                                                                                     |  |
| Determination of and Discussion on the Ages of Mesozoic Volcanic Rocks in Zhejiang—Comments on the argumentation of Lapierre et al. ....                               |  |
| ..... Tao Kuiyuan, Xing Guangfu, Yang Zhuliang, Mao Jianren, Zhao Yu, Xu Naizheng ( 21)                                                                                |  |
| The Overpressuring Mechanisms in Aquifers and Pressure Prediction in Basins .....                                                                                      |  |
| ..... Luo Xiaorong, Yang Jihai, Wang Zhenfeng ( 31)                                                                                                                    |  |
| Deep Geological Process and Its Shallow Response during Mesozoic Transfer of Tectonic Frameworks in Eastern North China .....                                          |  |
| ..... Shao Ji'an, Mu Baolei, Zhang Lüqiao ( 39)                                                                                                                        |  |
| Yanshanian Igneous Petrotectonic Assemblage and Orogenic—Deep Processes in East China .....                                                                            |  |
| ..... Deng Jinfu, Zhao Guochun, Zhao Hailing, Luo Zhaohua, Dai Shengqian, Li Kaiming ( 47)                                                                             |  |
| Thermochronological Analysis on the Uplift Process of the Yanshan Mountains .....                                                                                      |  |
| ..... Wu Zhenhan, Cui Shengqin, Wu Ganguo, Zhu Dagang, Feng Xiangyang, Ma Yinsheng ( 57)                                                                               |  |
| Verification of the Guandian—Longwangjian Fault and TEM Analysis of Mylonites and Its Geological Significance ...                                                      |  |
| ..... Huang Dezhi, Qiu Ruilong, Liu Deliang, Yang Xiaoyong, Xu Xiang ( 63)                                                                                             |  |
| A Research on the Relationship between the Metamorphism of Coal and Tectonic Structures in Central—South Hunan Province .....                                          |  |
| ..... Pan Wei'er ( 70)                                                                                                                                                 |  |
| A Study of the Mechanism of Hazards Controlled by Preferred Plane in Underground Mining .....                                                                          |  |
| ..... Ni Hongge, Luo Guoyu ( 78)                                                                                                                                       |  |
| Filtration Capability of Clayey Soil Liner for Garbage Sanitary Burial Fields and Its Significance .....                                                               |  |
| ..... Liu Changli, Wang Xiuyan, Zhang Yun ( 85)                                                                                                                        |  |
| Sm-Nd, Rb-Sr Geochronology of the Baoyintu Group in Northwestern Inner Mongolia .....                                                                                  |  |
| ..... Xu Bei, Liu Shuwen, Wang Changqiu, Zheng Haifei, Tian Feng ( 89)                                                                                                 |  |
| A Measurement of Maximum Principal Stresses of Main Tectonic Phases in the Zhangqiang Area, Northern Liaoning Province Since the Yanshanian Movement .....             |  |
| ..... Sun Baoshan, Ding Yuanchen, Ren Xifei, Shao Zhaogang, Zhou Xingui, Ren Desheng ( 98)                                                                             |  |
| A New Indicator of Ore-forming Fluids Source: $N_2$ -Ar-He Compositions in Fluid Inclusions .....                                                                      |  |
| ..... Sun Xiaoming, David I. Norman, Sun Kai, Chen Jingde, Chen Binghui (103)                                                                                          |  |
| On the Late Cretaceous Fossil Eggs of Tiantai, Zhejiang .....                                                                                                          |  |
| ..... Fang Xiaosi, Wang Yaozhong, Jiang Yangen (111)                                                                                                                   |  |
| Ophiolite Found in the Qimantag Area, East Kunlun Mountains, Xinjiang .....                                                                                            |  |
| ..... Shen Yuanchao, Yang Jinzhong, Liu Tiebing, Li Guangming, Zeng Qingdong ( 90)                                                                                     |  |
| The Application of GIS (Technique) to Calculation of Area of soluble rocks in China .....                                                                              |  |
| ..... Jiang Xiaozhen (104)                                                                                                                                             |  |
| A brief Introduction to the Continental Scientific Drilling Project .....                                                                                              |  |
| ..... Geological Department, the Center of the Continental Scientific Drilling Project ( 48)                                                                           |  |
| Comments on the Discovery of Carbonaceous Compelled Fossils and Multi-cell Fabrics and Structures in the Mesoproterozoic Changzhougou Formation .....                  |  |

| Progress and Trends of Researches on Fluid Inclusions .....                                                                               | Lu Huanzhang, Guo Dijiang                                          | (392)        |
| A Discussion on Medical Geology .....                                                                                                     | Shi Hongyue                                                        | (399)        |
| A Study of Geological Event Records in the Proterozoic Chuanlinggou Formation of the Ming Tombs District, Beijing .....                   | Song Tianrui, He Zhenjun, Ding Xiaozhong, Zhang Qiaoda             | (406)        |
| Sedimentary Environment of Carboniferous System in Shangcheng—Gushi Area, Henan Province and Its Tectonic Implications .....              | Zhao Zongju, Yang Shufeng, Chen Hanlin, Zhu Guoqiang, Lou Zhanghua | (416)        |
| Crustal Structure of the Northern Margin of the South China Sea and Its Tectonic Processes Since the Cretaceous .....                     | Yan Quanren, Wang Zongqi, Li Zengyue, Li Jiliang                   | (423)        |
| Research on Lithofacies and Reservoirs of Shang-741 Igneous Oil Reservoir, Linyi Subbasin .....                                           | Liu Huimin, Xiao Huanqin, Han Ronghua                              | (430)        |
| Features and Occurrence Mechanism of the Large Complex Landslides in Baotaping, Fengjie County in the Three-Gorges Reservoir Region ..... | Zhang Jiagui                                                       | (436)        |
| Quantitative Research on Fault Gouge from the Base of the Zhenjiang—Yangzhou Yangtze River Highway Bridge .....                           | Wang Mingwu, Luo Guoyu, Yan Changhong                              | (442)        |
| Factors of Geological Settings for Arseniasis in Specified Zones of the Earth and Study Situation .....                                   | Zhang Hui                                                          | (448)        |
| Prospects and Countermeasures of the Water Resource in China in the 21st Century .....                                                    | Yuan Zhimei, Wu Xiafen                                             | (424)        |
| The 37th Council (2000~2004) of the Geological Society of China Organized .....                                                           |                                                                    | (384)        |
| Name List of the 37th Council Organization (2000~2004) of the Geological Society of China .....                                           |                                                                    | (384)        |
| Advanced Collectivities and Advanced workers (1997~2000) of the Geological Society of China .....                                         |                                                                    | (back cover) |

|                                                                                                                                     |       |
|-------------------------------------------------------------------------------------------------------------------------------------|-------|
| 15th International Himalaya—Karakoram—Tibet Workshop (HKT) Hold in Chengdu, China .....                                             | (354) |
| All the Papers Published on <i>Acta Geologica Sinica</i> (English Edition) Are Included in the <i>Scientific Citation Index</i> ... | (346) |

## No. 5

|                                                                                                                                                                                 |                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| Some Remarks on the Geologic Age and Stratigraphic Sequence of Yunkai Group in Yunkai Mountains .....                                                                           | Ye Zhenhua, Lao Qiuyuan, Hu Shiling (453)                                              |
| Evolution Characteristics of Cenozoic Structural Style in the Qaidam Basin .....                                                                                                | Dai Junsheng, Cao Daiyong (460)                                                        |
| An Important Carrier of High-Pressure and Ultrahigh-Pressure Metamorphic Fluids: Nominally Anhydrous Minerals .....                                                             | Xia Qunke, Chen Daogong, George Rossman, Zhi Xiachen, Cheng Hao, Wu Yuanbao (465)      |
| The $^{40}\text{Ar}/^{39}\text{Ar}$ Fast-Neutron Activation Age of Quartz from the Aketishikan Gold Deposit in Northern Altay of Xinjiang and Its Geological Significance ..... | Zhou Taofa, Yuan Feng, Yue Shucang, Yuan Xuyin (470)                                   |
| Variations in Continental Weathering Intensity over the Past 2.5 Ma .....                                                                                                       | Yang Jiedong, Chen Jun, Li Chunlei, Tao Xiancong, Ji Junfeng, Chen Yang (480)          |
| Petrological Characteristics of Fenites and Their Geological Significance .....                                                                                                 | Yang Xueming, Yang Xiaoyong, Fan Hongrui, Guo Fan, Zhang Zhaofeng, Zheng Yongfei (490) |
| Advances in the Study of the Mechanism of Hydrocarbon Generation from Source Rocks by Catalysis .....                                                                           | Liu Luofu, Li Shuyuan (498)                                                            |
| Neotectonic Analysis of the Kuqa Foreland Thrust Belt by Using Remote Sensing Data .....                                                                                        | Fan Xiangtao, Lu Huaifu, Guo Huadong, Shao Yun (506)                                   |
| Correlation between the Fractal Dimension of Fault Gouges and Fault Activity in Active Fault Zones .....                                                                        | Hu Daogong, Wu Shuren, Wu Ganguo (511)                                                 |
| Geochemical Characteristics and Genesis of Some Neoproterozoic Granitoids in the Northern Part of the Western Margin of the Yangtze Block .....                                 | Shen Weizhou, Ling Hongfei, Xu Shijin, Zhou Xinmin, Zhao Zifu, Guo Jianqiang (518)     |
| Ascertainment of the Alkaline Rhyolites at Yunshan Mountain, Yongtai County, Fujian Province and Its Geological Significance .....                                              | Qiu Jiansheng, Wang Dezi, Zhou Jincheng, Wang Rucheng (529)                            |
| Coupling Between the Permian Volcanic—Sedimentary Sequences and the Basin Evolution in the Western Junggar Foreland Basin .....                                                 | Zhao Yuguang, Xiao Linping (535)                                                       |
| Geochemistry of Wall-rock Alteration of the Jinjiazhuang Ultrabasic Rock-Type Gold Deposit .....                                                                                | Li Hongyang, Yang Zhusen, Ding Zhenju, Luo Taiyi, Gao Zhenmin (541)                    |
| Discovery and Gold Preconcentration Study of the Lamprophyre Alteration-type Gold Deposits in the Qinling Area .....                                                            | Tu Huaikui (548)                                                                       |
| Present Freshwater Stromatolites and Algal Mats in Surface Calcareous Tufa in the Sichuan and Guizhou Areas .....                                                               | Tian Youping, He Fusheng (555)                                                         |
| Restoration of the Original Parameters of the Chemical Kinetic Models for Generation of Hydrocarbons from Mature Organic Matter in the Tarim Basin and Its Significance .....   | Lu Shuangfang, Fu Xiaotai, Li Qiming, Liu Xiaoyan, Feng Yali (560)                     |
| Progresses on the Study of the Devonian in Hainan Island .....                                                                                                                  | Zhang Renjie, Hu Ning, Feng Shaonan (454)                                              |
| The First Discovery of Anomaly of Lateritic Type of Gold Deposit in the Weathering Crust of the Miocene Basalt in Yangyuan County, Hebei Province .....                         | Zhu Guanxiang, Min Longrui, Li Jinhong (471)                                           |
| An Introduction to "Study on Structures in Latitudinal Systems of China" .....                                                                                                  | Liu Ruixun (519)                                                                       |
| Notes for Contributors to " <i>Acta Geologica Sinica</i> (Chinese and English Edition)", " <i>Geological Review</i> " .....                                                     | (Back cover, 542)                                                                      |

## No. 6

|                                                                                                                      |                                             |
|----------------------------------------------------------------------------------------------------------------------|---------------------------------------------|
| Analysis of the Amount of Late Himalayan Crustal Shortening in the Central Sector of the Qinghai—Tibet Plateau ..... | Wu Zhenhan, Jiang Wan, Zhang Shukun (568)   |
| Longitudinal Shortening Amount between the Himalayan Terrain and the Qaidam Block Since the Early Cretaceous .....   | Li Pengwu, Cui Junwen, Gao Rui, Li Li (572) |
| Discovery and Significance of Small Shelly Fossils in the Bayan Obo Group in Shangdu, Inner Mongolia .....           | Tan Like, Shi Tiezheng (583)                |

|                                                                                                                                                  |                                                                                           |
|--------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| Formation of the Anjihai River Terraces at the North Tianshan Piedmont, Xinjiang, and Significance .....                                         | Wang Yong, Wang Yanbin (587)                                                              |
| Relationship between Slit System and the Kübler Index of Illite Crystallinity and Discussion on Relevant Problems ...                            | Wang Hejing, Zhu Mingxin, Xu Qingsheng, Liu Chuxiong, Bian Zhihong (593)                  |
| Tourmaline—A Sensitive Tracer for Petrogenesis and Minerogenesis .....                                                                           | Jiang Shaoyong, Yu Jimin, Ni Pei, Ling Hongfei (603)                                      |
| New Dinosaur Ichotaxon from the Early Cretaceous Laiyang Group in the Laiyang Basin, Shandong Province .....                                     | Li Rihui, Zhang Guangwei (609)                                                            |
| $^{40}\text{Ar}$ - $^{39}\text{Ar}$ Dating of the Shangcheng—Macheng Fault Belt in the Dabie Orogen and Its Significance .....                   | Wang Yitian, Li Jiliang, Liu Deliang, Wu Yungao, Fu Yongtao, Wu Jun (615)                 |
| U-Pb Zircon Dating of the Yeniutan Granitic intrusion in the Western Part of the North Qilian Mountains .....                                    | Mao Jingwen, Zhang Zuoheng, Jian Ping, Wang Zhiliang, Yang Jianmin, Zhang Zhaochong (620) |
| $^{40}\text{Ar}$ - $^{39}\text{Ar}$ Geochronology of the Shuiquangou Alkaline Complex and Related Gold Deposits, Northwestern Hebei, China ..... | Jiang Sihong, Nie Fengjun (627)                                                           |
| Geochemical Features and Genesis of the Laowanchang Lateritic Gold Deposit in Guizhou .....                                                      | Chen Lü'an (637)                                                                          |
| Composition and Significance of Magmatic Inclusions in Pyroxenes of Volcanic Rocks from the Shengli Oilfield, China .....                        | He Ying, Zhu Xingguo, Liao Yongsheng, Xu Peicang, Liu Wenfeng, Wang Zhihai (644)          |
| Natural Gas from Secondary Cracking of Crude Oil—An Important Pattern of Gas Generation .....                                                    | Zhao Mengjun, Lu Shuangfang (650)                                                         |
| A Study of Soil Environment Geochemistry in Geological Investigation of Ecological Environment in the South Jilin Province .....                 | Liu Shutian, Zhang Dongli, Zhang Yanqiu (659)                                             |
| A Brief Introduction to the 31st International Geological Congress .....                                                                         | Geological Society of China (560)                                                         |
| An Argument about the Article "The Cretaceous in Gyangze, Southern Xizang (Tibet): Redefined" .....                                              | Wu Haoruo (587)                                                                           |
| Field Investigation in Ural .....                                                                                                                | Mao Jingwen (604)                                                                         |
| A Brief Introduction to the Symposium on Abnormal Pressure in the Crust .....                                                                    | (637)                                                                                     |
| Introduction to New Books .....                                                                                                                  | (620)                                                                                     |
| Contents of 46, 2000 .....                                                                                                                       | (655)                                                                                     |
